**WHEREAS**, the Board has noted numerous areas of positive performance, including:

1. Strengthening DC Water's financial integrity by achieving a reserve fund balance of \$141.5 million, \$16 million above the reserve target of \$125.5 million – after increasing funds to the Rate Stabilization and Pay Go financing;
2. Maintaining excellent credit ratings and issuing \$300 million of bonds at an interest rate of 5%;

4. Executing \$713.4 million in design, construction and management contracts with 48% committed to MBE, WBE, LSBE and CBE (all records for DC Water) ;
5. Securing financial independence from the District of Columbia by demonstrating that DC Water is no longer a "component unit" of the District of Columbia government for purposes of accounting treatment;
6. Executing an innovative strategy to fund operations by drawing down "working capital funds" to avoid a shutdown during the federal shutdown due to a lack of Congressional appropriation for the 2014 budget;

7. Maintaining all capital projects on-time and on-budget, including reaching deadlines associated with the \$2.6 billion Clean Rivers, \$1 billion Enhanced Nitrogen Removal and \$ 460 million Digester projects;
8. Intervening and helping finalize a four-year collective bargaining agreement for almost 70% of the DC Water workforce after two years of deadlocked negotiations;
9. Completing a precedent-setting working conditions agreement with AFGE Local 2553, approved by the Board and the local membership;
10. Steering DC Water through heightened public interest in workforce development and hiring;
12. Devising the DC Water Works! Program to improve community outreach, opening satellite job centers and running three pilot programs focused on local hiring incentives and comprehensive job hiring and retention programs;
13. Implementing key recommendations from the Mayor's Task Force on Flooding , including expanding the backwater valve program, funding LID construction, funding the District Department of the Environment's rain barrel program, designing and building the MacMillan stormwater and First Street Tunnel programs – all on-budget and in record time;
14. Achieving Board approval of the updated Master Plan, including funding for a new administration building and moving Customer Service to a new LEED certified rental space ay a savings of \$250,000 per year;
15. Elevating the importance of innovation by appointing an Innovation Chief and supporting the filing of two patents and their associated potential for commercialization; and

**WHEREAS**, the Board has determined that the General Manager's performance was superior for the period of October 1, 2012 through September 30, 2013;

**NOW THEREFORE BE IT RESOLVED THAT:**

1. The Board of directors approves the General Manager's FY 2013 annual bonus of 15 % for the period of October 1, 2012 through September 30, 2013.
2. The General Manager's FY 2013 annual bonus will be \$39,000.
