- 1) All addresses meet Tier 1 criteria under 40 CFR 141.86(a)(3) as single family structures with either full or partial lead service lines based on WASA's customer information and service line inventory.
- 2) Service line material listings are representative of the pipe material at the time the sample was collected.

Appendix B: Additional Monitoring Data

Tables B.1 and B.2 present second draw results for lead and copper compliance sampling. Other additional monitoring data presented in Attachment 1 to this report contains sample data collected from other WASA programs that focused on lead and/or copper or other metals that included lead sample results. A description of the program followed by the data set is included in Attachment 1.
