At the end of January 2025, cash receipts totaled \$351.1 million, or 37.9 percent of the FY 2025 Budget. The YTD budgeted receipts were \$314.6 million. Several categories of customers make payments on a quarterly basis, including the Federal Government (which made their second quarterly payment in January 2025), and wholesale customers (which made their first quarterly payment in November 2024).

Favorable Variances	Unfavorable Variances
<p><b>Residential, Commercial, and Multi-Family</b> – Receipts for this category are favorable at \$189.1 million or 35.4 percent of the budget. The higher receipts are partly due to higher consumption and CRIAC in the Residential, Commercial and Multi-family categories as compared to the budget. The January 2025 receipts were lower by \$2.2 million, as compared to the monthly budget of \$44.5 million.</p> <p><b>Federal</b> - Actual receipts through January 2025 totaled \$46.8 million or 51.0 percent of the budget. The Federal government made its second quarter payment in January 2025.</p> <p><b>District Government</b> – Receipts are higher at \$9.1 million or 36.8 percent of the budget. The \$0.9 million favorable variance is mainly due to higher consumption in September 2024 resulting in higher receipts in October 2024 (FY 2025).</p> <p><b>Wholesale</b> – At the end of January 31, 2025, the actual receipts for this category totaled \$40.8 million or 35.7 percent of the budget. The higher receipts are mainly due to the early quarterly payments made by Fairfax (\$4.4 million) and Loudon County (\$2.2 million) in January instead of the scheduled payment in February 2025. PI customers made their first quarter payment of \$0.5 million. The receipts also include contribution from Blue Drop (i.e. RECs, Bloom, etc.) for the IMA Wholesale Customers (\$5.6 million). The Blue Drop contribution to PIs was \$1.0 million.</p> <p><b>PILOT/ROW</b> – The receipts for PILOT/ROW are favorable at \$9.0 million or 37.6 percent of the budget. January 2025 receipts are at \$2.5 million, which is slightly higher by fifty-nine thousand dollars.</p> <p><b>Other Revenue</b> – Receipts are higher at \$27.3 million or 48.3 percent of the budget mainly due to higher DC Fire Protection Fee, Interest Earnings, and Washington Aqueduct Backwash. The District has paid early \$4.4 million Fire Protection Fee in January instead of scheduled payment in February 2024. The receipts also include Blue Drop contribution of District's share of \$4.9 million.</p>	<p><b>DC Housing Authority</b> – Receipts are lower at \$5.3 million or 31.6 percent of the budget. The \$0.3 million unfavorable variance is due to slightly lower consumption as compared to the budget.</p>

VARIANCE ANALYSIS FOR MAJOR REPORTED ITEMS

Total operating expenditures for this period (including debt service and the Right-of-Way & PILOT fees) totaled \$229.6 million or 29.1 percent of the FY 2025 budget of \$788.2 million.

Management presented proposed amendments to the FY 2025 Operating Budget as part of the Proposed FY 2026 Budget presented to the Board in January 2025, to reprogram \$5.5 million from debt services to CFCI to maintain the overall Board-adopted budget of \$788.2 million. These funds would be applied to PAYGO to reduce future borrowing costs. Overall, the FY 2025 budget remains the same.

These numbers include estimated incurred but unpaid invoices and are subject to revision during year-end close-out.

Favorable Variances	Unfavorable Variances
<p><u>Personnel Services</u> – Of the 1280 positions authorized, 1146 were filled at the end of January. The YTD vacancy rate (based on authorized headcount less vacant positions that are over 180 days without recruitment) is 7.3 percent.</p> <p><u>Contractual Services</u> – Spending is in line with expectations throughout the Authority at this time of the fiscal year.</p> <p><u>Chemicals &amp; Supplies</u> – Underspending in Chemicals offset in part by overspending in Supplies due to increased costs of critical spare parts required for operations. We will continue to monitor this item as we progress through the fiscal year.</p> <p><u>Debt Service</u> – As previously reported, the YTD variance reflects actual cost of variable rate interest being lower than anticipated for variable rate bonds as previously reported.</p>	<p><u>Water Purchases</u> – Reflect DC Water’s share of Washington Aqueduct (WAD) expenditures (approx. 75 percent). Overspending is primarily due to increase in consumption. We will continue to monitor this item as we progress through the fiscal year.</p>

Notes: The temporary suspension of collection procedures in order to carry out the upgrade of the billing system to VertexOne in December 2017 was the cause of the increase in accounts receivable over 90 days (from the billing date) for September 2018. The increase in accounts receivable from March 2020 to September 2022 is primarily due to increased delinquencies and deferred payments due to the impact of COVID-19.

#### Customer Communication

Statements are provided to customers when there is activity on the account. To ensure that all customers are aware of the balances, statements are also mailed annually irrespective of whether there is an activity on the account. For the last three years, annual statements were mailed to customers on March 26, 2024, April 28, 2023, and January 25, 2022.

By law, refunds are to be requested by the account owner within two years of completion (DC Code § 34–2401.10). If not requested in that period, these accounts can be forfeited and closed. DC Water has placed a statement on invoices beginning in November 2019 notifying customers of the District law and that funds would be forfeited unless a refund is requested within two years of project completion or account inactivity. A notification to customers that is posted on our website indicates that unless a refund was requested, funds would be forfeited for projects without activity for ten years. AOBA and DCBIA have been asked to notify their membership to examine the invoices.

For accounts that were forfeited, zero balance statements were mailed to customers on August 16, 2021, September 21, 2022, March 26, 2024, and September 27, 2024.

#### Refund Requests and Forfeiture Disputes

Economic Update & Portfolio Summary**

**ECONOMIC COMMENTARY**

- The FOMC’s updated Summary of Economic Projections (SEP) showed a higher median expectation for inflation in calendar years 2025 and 2026, in line with recent upticks in various inflation metrics. Projections for gross domestic product (GDP) were also revised higher while the unemployment rate projection was lowered. Chair Powell noted that some FOMC members began to consider the implications of the new administration’s proposed policies when formulating their individual projections.
- The Fed’s updated median “dot” projection showed only 50 bps of rate cuts in 2025, down from previous projections which called for a full percentage point of rate cuts this year. The projections show a federal funds rate target range of 3.75-4.00% by the end of 2025.
- **Takeaway:** the Fed still views policy as restrictive. As such, the Fed expects to continue gradually lowering rates if warranted by the labor and inflation data.

**INVESTMENT PORTFOLIOS**

**PORTFOLIO RECAP**

- The portfolio is diversified among Bank Deposits, U.S. Treasuries, Federal Agencies, Mortgage-Backed Securities, Supranational Bonds, Negotiable CDs, Corporate Notes/Bonds, Municipal Bonds, FDIC Insured CDs and SEC registered money market funds.

- Vacancy & Other Adjustments
- Overtime & On-call Time
- Leave Adjustments
- New Positions (3)

## Decreases

- Eliminated Vacancies (45)

# Vacancy Rates: Trends, Budget Assumptions & Risks

- ◆ Recent hiring trends show a **lower vacancy rate**
  - 8.7% as of September 2024 (prior to proposed vacancy eliminations)
  - 3.4% of authorized headcount (vacant positions) eliminated
  - 7.3% as of January 2025 (reflects elimination of 45 vacant positions)
  
- ◆ **Budgeted vacancy rate of 7%** assumed in FY 2025 and reduced to 5% for FY 2026
  - Allocates funding based on mid-point salary estimates for vacancies
  - Aligns personnel cost projections with increased hiring efforts
  - Supports retention and reduces costs associated with temporary staffing
  
- ◆ **Adjustment of 2% vacancy rate** (difference between 5% and 7%) is approximately \$3.5 million and 1.6% of overall personnel services budget
  
- ◆ **Potential risks** of changing the budgeted vacancy rate
  - Impact to Hire – if hiring and competitive salary offers outpace the budget
  - Reduced Budget Flexibility – less room for unexpected costs such as high overtime usage for emergency responses, higher employee healthcare costs, and adjustments for sick and annual leave

Authorized & Vacancy Rates

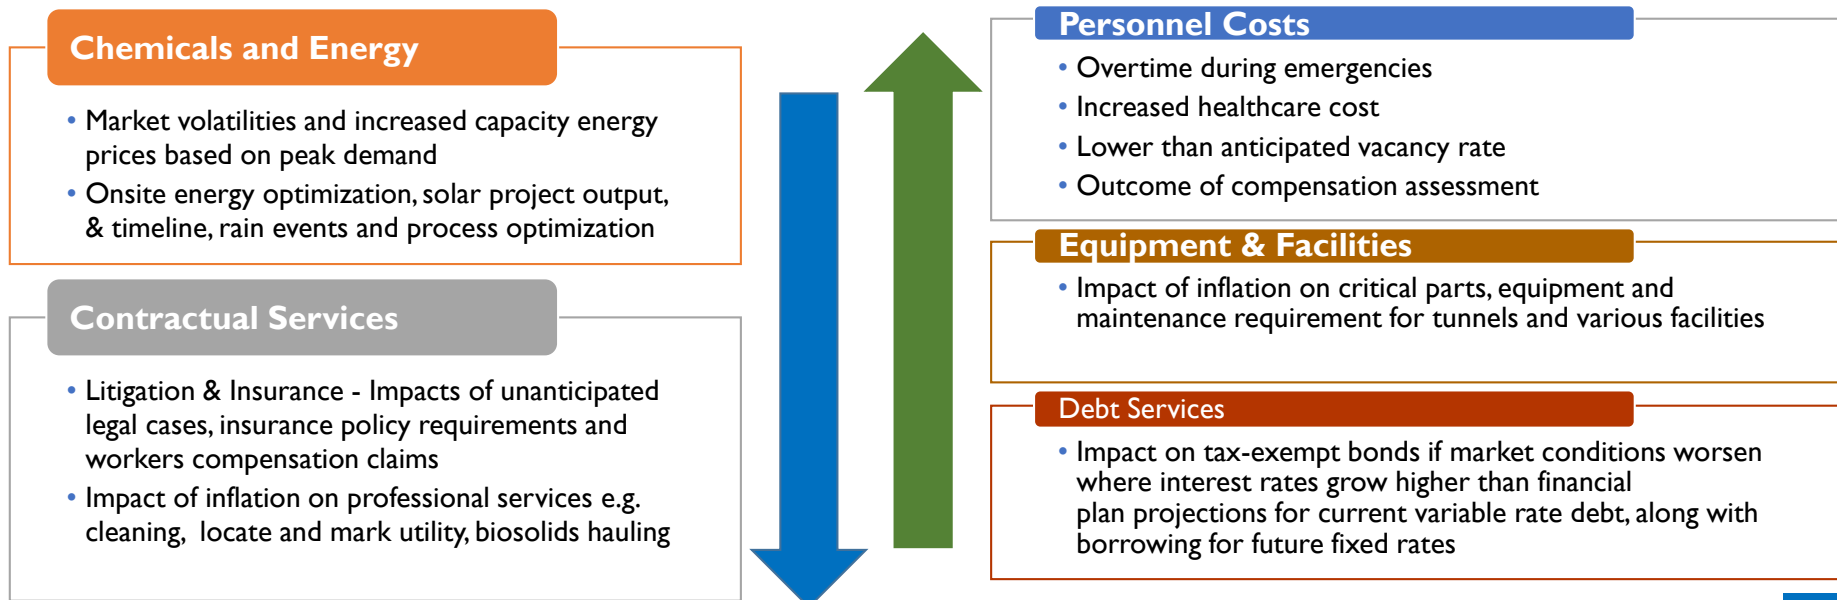

Authorized & Filled Positions

# Risks and Opportunities

- 💧 Budget for Cash Financed Capital Improvements (CFCI) serves as a contingency
  - Budgeted funds are used as pay-as-you-go (PAYGO) capital funding
  - If operating costs exceed budget, CFCI is reprogrammed out and PAYGO is reduced
  - If operating costs are less, unspent (O&M and debt service) budget will be reprogrammed to CFCI and used as PAYGO, reducing debt service costs for all customers

# The Capital Improvement Program

💧 The proposed ten-year CIP budget of \$9.62 billion includes **\$1.88 billion increase** over the Board-approved CIP

- Investment in our aging sewer and water systems for continued reliability, combined increase of \$580 million
- Full rehabilitation of the Potomac Interceptor, increase of \$435 million
- Brass replacement and permit fee requirements for the Lead-Free program, an increase of \$367 million
- Rehabilitation and upgrades to wastewater treatment mainly for Liquid Processing, total increase of \$430 million
- DC Water’s share of the Washington Aqueduct’s capital program, an increase of \$143 million mainly in the latter years
- Reduced spending for the Clean Rivers project as we approach the completion of the Potomac River Tunnel, decrease of \$98 million

# Historical and Projected Combined Rate Increases

From FY 2031 and beyond, forecasted rates are higher than previously estimated due to higher costs

- Water/wastewater infrastructure is highly capital-intensive – More so than gas or electric utilities, requiring continuous investment.
- Aging infrastructure – Higher replacement costs because of the age of infrastructure.
- Material costs rising faster than general inflation – Materials like pipes have seen significant cost increases.
- Debt service for capital projects – Projects are funded through bonds, increasing long-term costs.

## Changes in Financial Plan

- Changed assumptions for County Refunds in the Revised Financial Plan as follows:
  - Projected \$3 million per year County Refunds for the FY 2025, FY 2026, and FY 2027
  - The previous plan assumed County Refunds of \$11.0 million for FY 2025, \$7.6 million for FY 2026, and \$5.9 million for FY 2027
  - The revised assumptions resulted in slight improvement in financial metrics like Combined Coverage, Senior Coverage, Junior Coverage, and Debt Service as a Percentage of Operating Revenue

## **Intent to Reimburse Capital Expenditures with Proceeds of a Borrowing**

# Intent to Reimburse Capital Expenditures

- Approval to reimburse DC Water for “Costs of the System” as defined in the Master Indenture; allows DC Water to reimburse itself for capital expenditures with debt proceeds
- For FY 2025 and FY 2026 amount requested is \$785 million; DC Water has three years from the time of the last expenditure to make the reimbursement
  - DC Water plans to enter the market Summer 2025
  - Borrowing for FY 2025 and FY 2026 was combined for approximately \$785 million
- As part of the request to issue a specific series of debt in the future, the Board will be asked to adopt a specific resolution that confirms the intent for the actual amount financed with actual reimbursed expenses

**Ratemaking Process**

The Board's Strategic Plan and 10-year financial plan provide the framework for the formulation, prioritization, implementation and monitoring of the annual budget process.

The annual budget process typically begins with planning in June and official kickoff in July of each year for the Operating and Capital Budgets. Plans and budgets are prepared at an appropriate level of detail for each management level. Assumptions inherent in the plans and budgets reflect the entity's historical experience, current conditions and Executive Team's directives. Once decisions are finalized for the operating and capital budgets, management develops the financial plan and rate model including various scenarios to ensure a balanced budget for recovery of costs. Further review is undertaken with independent consultants including benchmarking our proposed rates with peers in the industry. DC Water develops two-year rate proposals. The benefits of multi-year rates include greater revenue certainty, increased budget discipline and better alignment between revenues and expenditures.

The proposed budgets are finalized during the fall of each year, and introduced to the Board during the Budget Workshop typically in January. The Committees then submit their recommendations to the full Board for adoption and DC Water's adopted budget is included in the District of Columbia's budget submission to U.S. Congress.

DC Water's adopted budget and proposed rates are communicated via various news and media outlets as well as town hall meetings in each ward and a public hearing to provide customers the opportunity to comment on the changes. Once the budgets are appropriated by Congress and the final rates approved by the Board, they become effective on October 1st of each year.

## FY 2025 vs. FY 2026 Budget Variances

 **Personnel (\$7.8 million increase)** – Reflects adjustments for vacancies, merit, bonus payment, overtime and other salary adjustments. Assumes an overall vacancy rate of 5% compared to 7% in FY 2025 due to elimination of existing vacancies (saving customers \$5.7 million)

 **Chemicals (Relatively flat)** – Budget is based on current price projections with unit price increases for sodium hypochlorite offset by unit price reductions in methanol and other chemicals. Energy market volatilities may impact the budget

 **Supplies (\$1.9 million increase)** – Reflects inflationary cost pressures for critical parts and custodial materials

 **Utilities (\$1.3 million net increase)** – Anticipates increased capacity prices for electricity starting with offsetting reduction in natural gas and water usage in various treatment activities consistent with current trends

 **Water Purchase (\$2.8 million increase)** – Driven by proportionate cost for the dredging of the Little Seneca Reservoir

 **Contractual Services (no change)** – Caps spending at FY25 budget with cost adjustments for maintenance & repairs, software, insurance and various professional services for hauling and disposal, industrial cleaning and janitorial services

 **Small Equipment (\$0.2 million increase)** – Reflects rental of two cranes for use at Blue Plains

 **Non-O&M (\$35.8 million increase)** – Increase of \$27.5 million for debt service and \$7.9 million for CFCI/PAYGO to support the capital program. Additionally, there is an increase of \$0.4 million for PILOT payments to the District consistent with the MOU

- *Overtime* – The increase of \$2.1 million is primarily to address the growing need for overtime used for emergency repairs of our aging infrastructure, boil water events and equipment outages

## Headcount

- *Headcount* – Reflects elimination of 45 hard-to-fill vacant positions, while 3 new positions were added, bringing the total authorized headcount to 1,283
- *Vacancy Rate* – 5% assumed in FY 2026 compared to 7% assumed in FY 2025 budget. The vacancy rate based on active recruitment at the end of FY 2024 was 9%

ACTION ITEM**

**ACTION ITEM 4D: Recommend Board Approval for FY 2025 – FY 2034  
Proposed Capital Improvement Program (Ten-Year Disbursement Plan and  
Lifetime Budget)**

DC Water presents its capital improvement program on two different bases:

- a. **Ten-Year Disbursement Plan** – The cash disbursement-based capital plan is utilized to forecast the timing and amount of capital financing, which is the primary basis for projected retail rate increases.
- b. **Lifetime Budget** – The project lifetime budget reflects the total costs of each project active during the ten-year planning period. These costs include historical and projected spending, project contingencies, and labor (listed as separate line item).

As shown in Attachment A-1, DC Water requests the Board of Directors to approve the following:

- a. **FY 2025 – FY 2034 Disbursement Plan** – \$9.62 billion, including the Proposed Revised FY 2025 budget of \$717.7 million
- b. **Lifetime Budget** – \$17.81 billion

Economic Update & Portfolio Summary

**ECONOMIC COMMENTARY**

- The FOMC’s updated Summary of Economic Projections (SEP) showed a higher median expectation for inflation in calendar years 2025 and 2026, in line with recent upticks in various inflation metrics. Projections for gross domestic product (GDP) were also revised higher while the unemployment rate projection was lowered. Chair Powell noted that some FOMC members began to consider the implications of the new administration’s proposed policies when formulating their individual projections.
- The Fed’s updated median “dot” projection showed only 50 bps of rate cuts in 2025, down from previous projections which called for a full percentage point of rate cuts this year. The projections show a federal funds rate target range of 3.75-4.00% by the end of 2025.
- **Takeaway:** the Fed still views policy as restrictive. As such, the Fed expects to continue gradually lowering rates if warranted by the labor and inflation data.

**INVESTMENT PORTFOLIOS**

**PORTFOLIO RECAP**

- The portfolio is diversified among Bank Deposits, U.S. Treasuries, Federal Agencies, Mortgage-Backed Securities, Supranational Bonds, Negotiable CDs, Corporate Notes/Bonds, Municipal Bonds, FDIC Insured CDs and SEC registered money market funds.
- The overall yield-to-maturity on cost of the portfolio is 3.87%. The short term consolidated composite periodic 1 month return was 0.32% and the benchmark of ICE BofA 3- month Treasury Index periodic 1 month return was 0.36%. The Core Consolidated Composite periodic 1 month return was 0.33% and the benchmark of ICE BofA 1-3 Year Treasury Index periodic 1 month return was 0.37%.

**Operating Reserve and Bond Proceeds Portfolios**

- During January, the investment advisor (PFMAM) purchased a \$3.2 million Treasury yielding 4.32% and six Corporates totaling \$4.4 million with an average yield of 4.90%.
